Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 02 August 2004.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1-2, 4-12, 16 and 20-66 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Regarding claims 1, 2, 24, 39, 49 and 58, the disclosure, when filed, does not fairly contain information with respect to the claimed features, "supplying the obtained image data value to at least one pixel at least one of a selected plural number of times within one vertical synchronization interval, wherein **the number of times is selected to improve step response characteristics of the liquid crystal display device**", of claim 1, last 4 lines, "wherein **the number of times is selected to improve step response characteristics of the liquid crystal display device**", of claim 2, lines 8-10, claim 24, lines 8-10, claim 39, lines 8-10, claim 49, lines 12-14, and claim 58, lines 13-14. The disclosure, specifically paragraph 44 on page 17, paragraph 52 on page 21 and paragraph 63 on page 27, discloses "the frequency of repetition is not limited to two" and "the step response characteristics ... is more improved as the frequency of

Art Unit: 2673

repetition is increased"; i.e., the disclosure only teaches that more repetitions of driving results in better step response characteristics. This, by no means, teaches that the number of repetitions is selected. Accordingly, the original disclosure does not fairly convey to one of ordinary skill in the art that the inventor(s) had in their possession the above underlined features presently recited in claims 1, 2, 24, 39, 49 and 58. The other claims are dependent on claims 1, 2, 24, 39, 49 and 58.

Response to Arguments

3. Applicant's arguments with respect to claims 1-2, 4-12 and 16 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 2673

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
